No. 91

THE CITY COUNCIL

HOLD THE WEEKLY MEETING.

The School Board vacancy—Want
Lanes opened—Isolation Hospital

The city council met in regular session last evening. In the absence of Mayor McKenzie, Ald. May presided. Those present were Ald. May, McLeod, Clark, Fraser, Griesbach, Beard, Bellamy and Boyle.

The minutes of the preceding meeting were read and adopted.

SCHOOL BOARD VACANCY.

The opinion of the city solicitor as to the method to be followed in filling the vacancy on the school board were read and the secretary instructed to call a meeting for nominations to fill the office.

MEMORIALS PRESENTED.

Mr. Baldwin presented a petition from property owners in Block L, R. L. 14, complaining that lanes in the rear of the property were closed by the erection of buildings and asking that the lanes be opened. The request was referred to the city solicitor to give the necessary notice for the opening of the lanes.

J. Powell, a property owner in Block 2, R. L. 12, wrote objecting to any alteration of the lane adjoining his property and asking that the triangular plot formed by the petition of Jasper avenue be retained by the city for public purposes. The petition was laid on the table till the return of the city solicitor.

THE WATER BYLAW.

J. R. Brenton, as secretary of the watermen of the city, wrote asking for amendments to the water by-law. Mr. Brenton addressed the council urging that the watermen be allowed to charge extra where barrels were located in an inconvenient place. He quoted the water rates charged in Calgary. The matter was referred to the by-laws committee.

The solicitor wrote that in allowing a charge to pollute the river, the city was liable for damages on the suit of any riparian owner against whose land the sewerage flows. The letter was filed.

REPORTS

The Medical Health Officer reported, including an account for medicine used in cases of diphtheria. The report was referred back to the committee with a request for a separate report for each case.

COMMISSIONER'S REPORT

The commissioners presented several reports:

They had bought 1837 trees from Mr. H. Eason for \$124 for beautifying purposes, these to be delivered by the city. The trees included amur, maple, cottonwood and Russian poplars.

Recommended the establishment of an isolation hospital as a civil institution, not connected with either of the hospitals, the medical health officer to have supervision of the institution and engage nurses when necessary. Referred back to the commissioners for further report.

Recommended the use of the decimal system of house numbering. The commissioners were instructed to prepare a blue print illustrating the proposed system for presentation at a future meeting and were asked to proceed with the work of putting up the street signs.

The commissioners reported the improvements to the fire hall suggested by Ald. Griesbach. Ald. Griesbach explained the alterations and improvements required. The estimated cost would be \$3500. A plan of the desired extension to the fire hall was submitted. The report was referred to the Fire, Market and City buildings committee.

The purchase of certain property required to make the proposed deflection of Saskatchewan avenue was recommended. The report was laid on the table until the next meeting.

A by-law regarding debentures was passed at the request of the solicitor of the Bank of Commerce.

The report of the finance committee was adopted and the accounts ordered paid.

The commissioners were instructed to advertise the intention of the council to grade Jasper avenue extension and to call for tenders for the work.

Ald. Griesbach asked if a chief of police had been appointed, and if not, why not? Commissioner Kinnaid said that nothing had been done in the matter during the session of Mayor McKenzie.

SERGIUS' MURDERER

WOULD REPEAT HIS CRIME

Kaleif admits that he would do it over again—Member of the revolutionary committee.

Bulletin Special.

Moscow, April 19th—Kaleif, the murderer of Grand Duke Sergius was sentenced to death this afternoon, but no date has been set. The judge asked him before passing sentence if he were released would he repeat the crime and he answered "yes". He admitted that he was a member of the Russian Revolutionary Committee.

DELEGATES WERE NOT NOTIFIED.

At last night's council meeting, Ald. Boyle suggested that Ald. May as one of the delegates appointed by the council to confer with the G. T. P. authorities regarding the proposed agreement between the city and the company might have a report to make regarding the outcome of the negotiations. Ald. May in reply said he had no report to make for the reason that he did not know until he returned to Edmonton that he had been appointed a delegate. Messrs. May and Beck were chosen delegates while in the East and the duty of notifying them and of instructing them, Commissioner Kinnaid informed the council was left with the mayor.

FRENCH NEUTRALITY

THE SUBJECT OF DISCUSSION.

Experts think Togo will wait for the enemy near Japan with Nagasaki as a base.

Bulletin Special.

London, April 19th—Considerable discussion in European capitals as to France's alleged breach of neutrality in allowing Rejestrinsky in her territorial waters. It is conceded, however that the Russian fleet is an unwelcome guest and the French do not want trouble with Japan. Experts believe that Togo will await Rejestrinsky off the coast of Japan near Nagasaki as his base. The Russian's remarkable journey almost around the world to give battle is without precedent in the annals of history.

MORINVILLE CONVENTION

A convention was held at Morinville yesterday attended by delegates from various parts of that district to arrange a convention for the selection of a liberal candidate for the Provincial contest and fourteen delegates were in attendance and after considerable discussion it was resolved that no action be taken for calling the convention until the boundaries of the constituency are known and the date of the elections fixed.

GOOD AGENTS FOR THE Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

**ACTUAL SCHOOL CONDITIONS
IN MANITOBA AND THE TER-
RITORIES.**

Winnipeg Free Press.
The actual school conditions as they exist in this Province are being held up as a model and exemplar by Mr. John S. Willison, of the Toronto News, and by the other flaming Toronto apostles of discord. Mr. Willison delights to picture the school conditions today in Manitoba as being as nearly perfect as can be looked for in things human. Mr. Willison abominates the separate school. He says:

"Nowhere is the education provided in the separate schools as efficient as that of public schools, and I speak whereof I know, though unsolicited testimony, when I assert that many Roman Catholic citizens and lay Catholic educationists are gravely disaffected with the conditions of elementary Catholic education in this province (Ontario)."

These words of Mr. Willison are from an address on the North-West educational question which that gentleman has been delivering before the Canadian Club, of Toronto, and the report of which is spread over a page of the inflammatory newspaper he edits. In the same address Mr. Willison says:

"Outside of Winnipeg no separate schools now exist in Manitoba, and it seems certain that in Winnipeg a satisfactory arrangement will yet be effected and the separate school building taken over and utilized for public school purposes."

As to what Mr. Willison says of the separate schools in Winnipeg, Mr. A. P. Roblin could afford the Canadian Club of Toronto a perfect flood of enlightenment—if Mr. R. P. Roblin chose. Also in regard to the schools in this province outside Winnipeg, Mr. Roblin could give the members of the Canadian club of Toronto some truthful information—if he could only be induced to be truthful, in speaking publicly of this subject—that would startle those of them who may be getting faith in Mr. Willison's picture of the Roblin Government as a raging lion in the matter of national schools. On the contrary, the Roblin Government is a most lamb-like proposition in that regard.

In Manitoba today we have a school system which, as it is actually being carried on, ought to arouse the fervent discord-promoters in Toronto to far greater wrath than the school system in the Territories. It ought to incite them to pour out bitter denunciation upon Premier Roblin, instead of pointing to him as they do, as a staunch, unyielding champion and defender of national schools now, though he voted in the Legislature in 1890 against the measure establishing national schools in Manitoba. It ought to make them call aloud upon Premier Roblin to set his own house in order first, before undertaking to say anything about the sort of schools the new Province should have.

For the plain truth is that without the name of "separate schools," Manitoba has today in full operation what is virtually to all intents and purposes a separate school system. The Roblin Government has found it advisable and expedient, under cover of retaining "the form of national schools to yield the substance. One of the Public School Inspectors of the Province, Mr. Roger Goulet, appointed by the Roblin Government, has as his special duty the inspection of what are known as French bi-lingual schools, but which as a matter of fact, are Roman Catholic public schools. This is true of all the schools in the Province known as French bi-lingual schools—they are all practically Roman Catholic public schools. This is true of all the schools in the Province known as French bi-lingual schools—they are all practically Roman Catholic public schools. Mr. Goulet is a graduate

SCHOOL CONDITIONS.

Continued from page two

of St. Boniface College, but had not received professional training when he was appointed inspector, which was in 1900. His reports are headed "Roger Goulet, South Eastern diocese," but Inspector A. L. Young's reports are similarly headed, so that the two inspectors cover the same territory, one inspecting the Roman Catholic public schools, the other inspecting the Protestant public schools.

Inspector Goulet in reality has no territory delimited for himself—no inspectorial district in which he supervises every public school regardless of language. He has a roving commission to inspect all French schools, and as all French schools are Roman Catholic, he is to all intents and purposes the Inspector of Roman Catholic public schools. This assigning of a district to him nominally is merely to blind the general public to the fact that he is the Inspector of Roman Catholic public schools.

The first year Mr. Goulet's report showed that he went through portions of the province outside his own nominal territory to inspect. It is headed "Special Inspection," and states: "I received instructions to inspect the French-English schools in other inspectorates."

And it concludes thus: "With regard to French-English schools in the territory of other inspectors, I beg to remark that in the majority of cases the trustees are applying to the French inspector for settlement of disputes, employment of teachers, and all information connected with their schools."

The mistake of giving this information was not repeated. In no subsequent year has any reference been made by him outside the South Eastern District, though it is a fact that such visits have been regularly made.

Each year Inspector Goulet's report has a paragraph like the following from his report of 1941: "RELIGIOUS INSTRUCTION—I am glad to report in all the schools of my division full advantage is taken of the time allotted for religious teaching and religious exercises." Mr. Goulet, like all the other inspectors, conducts Normal classes for Third Class teachers. His class is held in St. Boniface. The non-professional examination papers for teachers are prepared under the direction of the Advisory Board, and are the same for all candidates. The French papers being simply translations of those set before the English candidates. These papers are passed upon by a board of examiners; in practice the French papers are examined usually by Roman Catholic

clergymen. The French candidates, having successfully passed the non-professional examination, attend the St. Boniface Normal School, of which Inspector Goulet is Principal, where they receive their professional training. He conducts the examinations for professional certificates, and these certificates are issued to the students by the Department of Education upon his recommendation.

Mr. Goulet laments every year the low educational standard of the French teachers, blaming the low salaries as the cause. He admits the exercise of much indulgence to enable the French candidates to pass their examinations, and also indulgence in granting their professional certificates. This Normal School in St. Boniface—a building which is not a mile as the crow flies from the Normal School in Winnipeg—is in immediate proximity to the palace of Archbishop Langevin, who frequently addresses the students. Last year twenty-seven French teachers attended the Normal session, (of ten weeks); twenty passed. This Normal School of St. Boniface only takes students for Third Class certificates. There are no French Normal School classes for Second or First Class teachers.

Persons belonging to Catholic religious orders teach in Manitoba schools, wearing the garb of their orders. These schools receive a Government grant. The Sisters from the Old Country receive "pensions" which are apparently renewed by the Provincial authorities from year to year. They are well qualified, it is believed, but they have no Provincial educational standing, and merely teach by grace of the Educational Department, without having to pass any examination in Manitoba. The Sisters of St. Mary all go through the French Normal School at St. Boniface. The Grey Nuns of St. Anne do not attend professional or non-professional examinations, and have no Provincial educational standing, but teach and their schools get Government grants. The brothers who teach all go through the Normal School at St. Boniface, which, as already stated, takes only students for Third Class certificates. It does not work higher than Third Class work.

It is thus evident that here in Manitoba where we are supposed to have a system of national schools which Mr. Wilson and the other dancing devils in Toronto proclaim to be a perfect paragon of a system, the minority have as a matter of actual fact much greater educational privileges than their co-religionists in the Territories will have under the autonomy legislation which is arousing the Toronto dreamers of the legislation in such ecstasies of fanatical rage. The contrast is a striking one. The minority in Manitoba have their own schools, which in fact, though not in form, are practically pretty nearly on the same basis as the Roman Catholic separate schools in Ontario.

Whereas in the Territories the entire school system is absolutely free

from clerical control. The qualification of teachers, the course of studies and the inspection of the schools is absolutely the same for all the schools. Religious instructions either Roman Catholic or Protestant, at the option of the trustees may be given in any school after half-past three o'clock, but no religious instruction may be given at any other period of the day. Children attending, not of the faith in which instruction is given, are excused from attendance during the half-hour.

Schools which conform to the standards laid down by the Territorial Board of Education and approved by the inspectors, receive proportionate shares of the Government aid to schools. There is one system of normal training and one only, which all teachers must take or be qualified in. There is only one system of inspection no difference being made between Roman Catholic or Protestant public or minority schools. There is the educational system which will be continued in the new Provinces, the speech which Mr. Roblin is to deliver at Balcar tomorrow—his first utterance since the outbreak of the North-West school agitation in Toronto—is being awaited with some interest. How is Mr. Roblin in view of the facts of the Roblin Government educational record, going to live up to the reputation he enjoys in Toronto as the staunch, unyielding champion and defender of national schools?

Persons belonging to Catholic religious orders teach in Manitoba schools, wearing the garb of their orders. These schools receive a Government grant. The Sisters from the Old Country receive "pensions" which are apparently renewed by the Provincial authorities from year to year. They are well qualified, it is believed, but they have no Provincial educational standing, and merely teach by grace of the Educational Department, without having to pass any examination in Manitoba. The Sisters of St. Mary all go through the French Normal School at St. Boniface. The Grey Nuns of St. Anne do not attend professional or non-professional examinations, and have no Provincial educational standing, but teach and their schools get Government grants. The brothers who teach all go through the Normal School at St. Boniface, which, as already stated, takes only students for Third Class certificates. It does not work higher than Third Class work.

It is thus evident that here in Manitoba where we are supposed to have a system of national schools which Mr. Wilson and the other dancing devils in Toronto proclaim to be a perfect paragon of a system, the minority have as a matter of actual fact much greater educational privileges than their co-religionists in the Territories will have under the autonomy legislation which is arousing the Toronto dreamers of the legislation in such ecstasies of fanatical rage. The contrast is a striking one. The minority in Manitoba have their own schools, which in fact, though not in form, are practically pretty nearly on the same basis as the Roman Catholic separate schools in Ontario.

MADE BY HAND

I HAVE each Pharaoh cigar rolled by hand! I do this in order that the leaves that go

into the filler may be properly placed, with the top towards the burning end of the cigar.

It also enables the packing of the filler to be properly done—you will find my Pharaoh will smoke easily and evenly from end to end!

I see that the materials are of the highest grade as well.

Cuban tobacco I myself select from the Manicurega district, in the Province of Santa Clara, is the filler—the most expensive Connecticut Broadleaf is the binder, and a clear, beautiful Sumatra I import from Holland is the wrapper.

My Pharaoh makes a mighty good smoke for the money.

CLOVER BAR MEETING.

A public meeting was held last night in Clover Bar school house in the interests of the candidature of Mr. Oliver. Notwithstanding the busy season there was a large attendance. Mr. Isaac Dore was chairman. The speakers were Messrs. J. G. Tarriff, M.P. for East Assiniboia, F. Oliver, E. W. Cross and M. McCleary. On the invitation of the chairman for discussion, Rev. Mr. Findlay, Methodist minister at Clover Bar, took the platform in opposition to the educational clauses and Mr. Oliver. He suggested that Mr. Oliver would not doubt get a better support at St. Albert than at Clover Bar and advised that Mr. Oliver's majority be cut down as a protest against the educational clauses of the auto-mobilists.

Mr. Oliver replied that he had always depended on and had always received the support of a majority in Clover Bar and he hoped to be as successful on the present occasion. Votes of thanks were given to the chairman and the speakers, including Rev. Mr. Findlay, which latter Mr. Oliver seconded, complimenting the reverend gentleman on his courage in choosing the platform instead of the pulpit from which to discuss politics.

RESOLUTIONS ADOPTED.

At a public meeting held at the residence of John Philip Muller at Stony Plain centre on Monday, the following resolution was adopted:—

"That we strongly endorse Mr. Oliver's present policy and we are well satisfied with his past record and hereby pledge him our support in the present election."

Signed on behalf of meeting—
JOHN PHILIP MULLEN, Chairman;
MARTIN ULMER, Chairman;
G. FEMPIET.

A meeting was also held at the residence of C. Albrecht, Glory Hills on the same evening when a resolution to the same effect was adopted signed by
GEO. WEBER, Chairman;
J. A. WILLE, Secretary.

ST. ALBERT YOUNG LIBERALS.

St. Albert, April 15.—At a meeting called for the purpose of reorganizing the Young Liberals' Association of St. Albert, the following officers were elected:

Honorary president, C. W. Cross.
President, Dr. J. A. Tierney.
1st vice president, Jules Chare.
2nd vice president, Jacob Maniche.
3rd vice president, A. Gillis.
Secretary-Treasurer, M. Hogan.
Committee.—H. R. Dawson, J. B. Otterburn, James Markin, John McGarry, J. Gillis, Alex. McDonald, Joe Colongore, Michael Hettinger, Thos. Killip and St. Pierre Bellrose.

The following gentlemen were appointed district vice-presidents: Ray—Angus McDowell, George Ryan; Riviere Qui Barre—Ed. Flynn, Geo. Timney; Egg Lake—T. J. Doyve and Fred. Beaudry; Independence—R. Owens and M. Collins; Edson—John Edgson and Thos. Jack; St. Pierre—Louis Van Acker; Rose Ridge—Pat Flynn and J. Kaiser; Morinville—M. Steffen and Louis Legasse; Pembina—Paul Ross and Gordon Melhould; Lac La Norme—D. Majeau; Noyes Crossing—D. Noyes; Onaway—W. P. Beauregard.

The following resolutions were unanimously adopted.

A resolution expressing the fullest measure of confidence in the policy and administration of the Government of Sir Wilfrid Laurier.

A resolution expressing the gratification at the appointment of our representative in Parliament, Frank Oliver, to the important portfolio of the Department of the Interior.

LARGELY ATTENDED FUNERAL.

The funeral of the late Thomas Houston took place yesterday afternoon and was one of the largest ever seen in the city. Rev. D. G. McQueen officiated and the funeral was conducted according to Masonic ceremonies. The pall bearers were Messrs. D. R. Fraser, G. J. Kinnaird, J. A. McDougall, J. Norris, W. Anderson and W. Groat.

The procession formed at the residence of Mrs. Houston on Tenth street west and led by the band proceeded to the Presbyterian church where service was held, interment being made in the Edmonton cemetery. The Masons, Odd Fellows and Old Timers attended in a body and the long line of private carriages which followed the hearse bespoke the wide acquaintance and friendship of the deceased.

STEAMER WRECKED

BY ACETYLENE GAS EXPLOSION

Canadian Government steamer on road
—Mate killed and captain and
two others mortally injured.

Bulletin Special.

Kingston, April 19th.—A buoy filled with acetylene gas exploded and wrecked the quay and set fire to and burned the Government steamer "Scott". Fred Mullin mate, was killed and Capt. Allison and two others of the crew mortally injured by flying debris. All the windows in the district were smashed by the explosion. The loss of the steamer is estimated at \$50,000.

HOTEL IMPROVEMENTS.

St. Albert, April 18th.—N. Asselin, the proprietor of the St. Albert hotel is building quite an addition to his already commodious and well equipped hotel. The addition is 54x26. On the ground floor there will be a washroom, card room 10x22, sitting room 12x18, sample room 12x18 and pool room. On the second floor will be 13 bed rooms and a bath room. Mr. Asselin's block has now quite a commanding appearance and when completed he will have a first class hotel. N. Brisette of Morinville, is the contractor.

BORING OPERATIONS

CONTINUED AT THE GAS WELL

Tid Plant Installed by the Company.
The Tools and how they are Handled

Work was resumed at the gas well some time since of the temporary close down and with double shifts the drill is now going day and night. The well has reached a depth of over 1100 feet and the intention is to continue operations to any reasonable depth. The cable at present in use on the drill is 1600 feet in length and if this depth should not produce the desired flow another cable, 2600 feet, is in readiness to be substituted.

AN INTERESTING SPOT

There are few more interesting concerns about the city than the gas well during the progress of the boring operations. A gas well is something of a novelty in itself to the majority of people and the method of boring, and removing the earth from the hole is probably more of a novelty. Added to this is the popular interest which attacks a quest for gas or oil, the discovery of either of which in a locality is conceded a boom of no small consequence to this district.

Those wishing to visit the well should secure a pass from Mr. T. A. Stephen, manager of the company, which will admit them to the building and assure them courteous treatment and explanations of many interesting matters by Mr. W. C. Ginter the driller in charge and his staff of assistants.

The company have installed a very efficient plant to carry on their work. Power is derived from a 30 horse power boiler supplying steam to a 25 horse power engine. The engine in running revolves an immense wheel which by means of a huge upright shaft tilts a large "walking beam" to the other end of which the drill is attached.

A huge drum set in a solid frame work and about which the cable coils like a thread on a spool is used for raising and lowering the drill.

Everything about the works but the supervision and the staking is done by machinery. Whenever power is required, the engine does the work and the men merely see that it is done. The engine even pumps the bellows for the force in which the tools are repaired and operates large overhead cranes by means of which the tools are swung from the large to the small. The wisdom of this provision is apparent when one is informed that the larger drills weigh about 800 pounds, and the wrenches with which these are disconnected from the stem when drawn up, run from 500 to 800 pounds.

THE TOOLS.

The tools with which the boring is done is a steel affair, several feet long with a nose shaped somewhat like the drills used in blacksmith shops. But way up this drill is a projection with a cutting edge, the business of which is to cut the casing, thus making it possible to lower this from time to time as the boring progresses.

The earth is removed from the hole by a "sand pump." Water is poured down the hole, which, mingling with the loosened earth, forms a thin mud. The sand pump is then run down. In the bottom of this is an automatic valve, which opens to admit the mud and closes when the upward haul begins.

EMERGENCY TOOLS.

Besides these implements, there is kept on hand a supply of tools for use in emergencies, such as the breaking of the cable, when the problem of raising a valuable drill from the bottom of a small hole several hundred feet deep is a matter of some importance. To do this all kinds of "fishing" tools are kept in readiness.

BORING

Properly speaking the well is not "bored" at all—it is "punched." From the end of the walking beam mentioned above the drill is suspended by an immense cable. The tilting of the beam merely raises the drill and lets it drop again. The driller stands beside the cable and by means of a lever, twists it a short distance with each ascent of the drill. The distance which the drill rises and falls is not more than a few feet, but the immense weight of the instrument gives it the necessary force in the down thrust. This weight is increased by attaching just above the drill solid steel bars, several inches thick, and of a length varying from a yard or so up to 38 feet. The joined sections of these bars comprise the "stem" of the drill.

REMOVING THE EARTH.

When the drill has worked its way down several feet with the earth, it is hauled up. It is this process which gives the spectator the best idea of 1100 feet perpendicular measure. The huge drum revolves and coil after coil of the cable is wound on before the drill appears. About three minutes steady running were required yesterday to bring the drill to the surface. The sand pump is then run down several times until the hole has been

cleared, when water is poured down to soften the earth and the drill lowered again for work.

The drills are of various sizes ranging from 15 inches down, the size at present in use being 7-5/8 inches. The larger drill is used for the first 150 feet or more, and the others in succession in order of size.

THE CASING.
As the well is drilled an iron pipe or casing is inserted in the hole and lowered as the boring proceeds, to prevent caving in and to ensure free passage for the drill and sand pump up and down the well.

THE PROSPECTS.

The company and the men in charge of the actual work are confident that it is merely a question of going deep enough to find gas in paying quantities. A supply was struck at a depth of 300 feet, but not in sufficient volume to satisfy the company and arrangements were made to continue operations until a satisfactory flow is struck or the uselessness of further work made apparent.

CITY GOVERNMENT:

Mayor, E. W. McKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:—Waterworks, sewer system, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, A. B. Campbell, Vice-President, A. T. Cushing, Secretary, F. T. Fisher.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 15.30. Arrives from Strathcona 9.15 and 10.50.

LOCAL

—Train on time.

—Friday is a public holiday.

—E. Williams fur was sold yesterday for \$180.00. J. Henderson secured it for \$682.50.

—Probs—Cooler today and Thursday.

—Williamson Bros. will erect an ice house at their abattoir.

—The Woodmen hold a special meeting at 8 o'clock this evening.

—Workmen are engaged placing Fraser & Co's boom in the river.

—The annual report of the Department of Railways and Canals has been issued.

—The town of Strathcona is repairing the road to the bridge, filling in the holes and grading where necessary.

—J. Hostyn, of the Edmonton Hotel is having the slope south of the hotel terraced and arranged as a flower garden.

—E. Corey's fur was sold Monday in two lots, J. Henderson securing one lot for \$180.00 and J. McLaughlin & Sons the other for \$130.50.

—The residence of Mr. G. C. Emery on Sixth street west is being re-modelled and enlarged. A conservatory has also been erected.

—An outfit of twenty mules were brought back during the week from Montana. It is reported the outfit will be employed on C. N. R. grading.

—There will be a sale of work in Grace Methodist church, Knistino avenue on Thursday afternoon beginning at 2 o'clock. It will be served at a reasonable charge.

—Mc. McCauley is in the city from Beaver Lake. The road on the base line is now dry and in good condition. Seeding is well under way at the lake.

—All May returned on Saturday from Ontario. Seeding had begun in some parts of Ontario, but was not general. Snow was seen on the ground north of the way from North Bay to Red River when on the return trip.

—Old timers claim that no winter memory has there been so little water in the river as at present. A. J. Fraser has been in Edmonton since '79 and states that he never before saw the water so low. The river is being forced daily at many points in the vicinity of the city.

—W. Pearce who has been conducting the boring operations for gas on the Vasek property has reached a depth of 135 ft. A second flow of gas was struck at this depth but water coming into the well prevented further work for the present. The hole will be cased, the water removed and work resumed.

—The Harold Nelson Co. went south this morning, having completed their engagement here. Last night they played "Rehearsal" to a large audience in the rink theatre. Mr. Nelson had been seen here twice before in this character but familiarity does not lessen the popular appreciation of his presentation.

—On last Sunday, while walking down the river bank, between the big slide and Fraser's mills, George Moore found the bell of the old Hudson Bay Co's steamer, "Northwest".

The steamer was torn from its moorings in the high flood of July 1899, and drifted down stream. The boat went to pieces, and dropped its boilers just above where the railroad bridge now stands, but the bell was never found until Sunday. It is an exceptionally fine one, and the H.B. Co. officials presented Mr. Moore with \$25 for its return.

PERSONAL

Mayor McKenzie is expected home from Calgary tonight.

W. H. Cushing came up from Calgary last night.

M. Thompson went to Calgary this morning.

August Brantz, of Mewassin, is in the city today.

F. X. Soudier, inland Revenue inspector, returned to Calgary this morning.

F. Groat left this morning for Macleod, Plaster Creek and other southern points to purchase horses.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North West Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty, at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding "free miners' certificates" may obtain entry for mining locations.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1500 by 1500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof.

When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or beach, the former being 100 feet long, and extending between high and low water mark.

The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where stream power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba, and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark, on each alternate lease.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—A lease of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek, gulch, but the same miner may hold a number of claims by purchase, and free miners may work their claims in partnership by filing notices and paying fee of \$2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned.

MRS. H. C. McDONALD,

Jasper Avenue

abandoned, and open to occupation

and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted.

Rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent, of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lessee includes all base metals, quartz and coal, and provides for the withdrawal of unopened land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the North-West Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.
